

Jigar Patel, D.P.M., Class of 2024

My name is Jigar Patel. I was born and raised in Phoenix, Arizona where I went to undergrad at ASU and podiatry school at AZCPM. I matched to the Southern Arizona Veterans Healthcare System residency in beautiful Tucson AZ.

My interest in podiatry started at a young age and became more definite as I shadowed podiatrist during my gap year. Going through podiatry school even further solidified my decision. My interests in podiatry include wound care, diabetic limb salvage, Charcot Marie Tooth reconstruction, and dermatology. Outside of podiatry, I enjoy working on cars, off-roading, cooking, and doing DIY projects around the house. Thank you to the Bako Medical Education Foundation for providing students with excellent scholarships and helping further our careers through their generous scholarships.
