

Kyle Parker

AZCPM, Class of 2023

My name is Kyle Parker, and I am from a small town in Illinois and matched at the New Mexico VA program in Albuquerque. I completed my undergraduate degree at Augustana College in the Quad Cities.

My interest in podiatry started after meeting a new podiatrist who was hired at the hospital where my mom works. My specific interests in podiatry are elective reconstructive and Charcot reconstructive surgery. In the future, I would like to work either in a hospital group or a large multispecialty group. My hobbies outside of podiatry include video games, hiking and hanging out with my dog and fiancé.
