

BAKO Pathology Service Endowed Scholarship \$1,000

Faiza Zahid, DPM 2022 2020 Recipient

Dear BAKO Medical Education Foundation,

I would like to express my immense gratitude for your support of future podiatric physicians with the BAKO Pathology Service Endowed Scholarship. I was honored to learn of my selection and am deeply appreciative of your investment in my education.

As someone who grew up and attended college in southern California, I feel invested in serving the community that influenced my goals of pursuing a career in medicine. I will be entering my clinical years soon, and I am grateful that this scholarship will ease my financial situation so that I may focus on patient care and experiential learning. In this challenging time under the COVID-19 pandemic, this scholarship renews my spirits and reinvigorates my visions of helping others to keep stepping forward towards a healthier future.

I will continue to strive towards my educational goals so that I can be fully prepared to heal my future patients and play a vital role in our health care system. I plan to one day repay this generosity with similar support for a future podiatric medical student.

From the bottom of my heart, thank you!

Sincerely,

Faiza Zahid
